

## Fun facts about sheep.

There are over 1 billion sheep in the world.

China has the largest number of sheep in the world.

Adult female sheep are known as ewes.

Adult male sheep are known as rams.

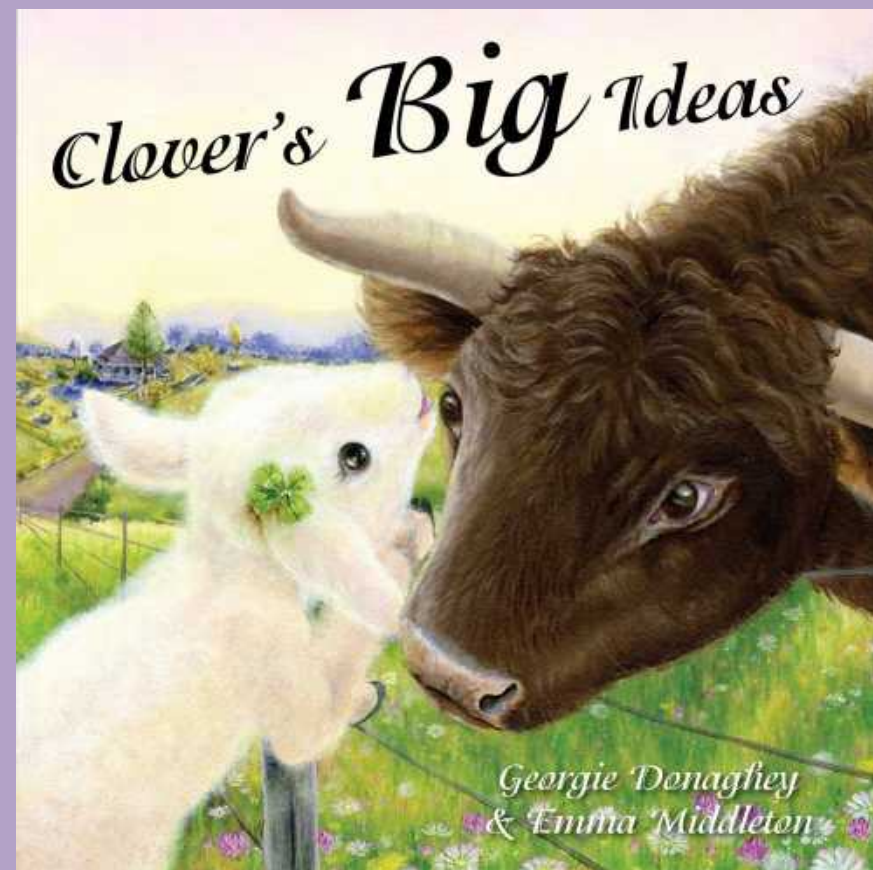

A group of sheep is known as a herd, flock or mob.

Young sheep are called lambs.

Sheep have a field of vision of around 300 degrees, allowing them to see behind themselves without having to turn their head.

Sheep are herbivores – they eat grass.

Sheep like to stay close to others in a herd which makes them easier to move together to new pastures.

## Making friends.

- Smile. Smiling is an invitation to other people.
- Look approachable. Say 'hi'. If you look grumpy, it may stop others approaching you.
- Be the friend that you want to have. Friends should make us feel good. If they don't, they are not the right friend for you.
- Don't be in their face.
- Invite others to play a game with you. Kicking a ball or sharing dolls is a great way to start a friendship.
- Be yourself. Don't try to tell them all about you at once. Give them time to get to know the awesome person you are.
- Be persistent but not pushy.
- Share your BIG ideas. Being helpful and kind to others can open friendship doors.
- Never tease anyone just to make friends with somebody else.
- Not everyone may want to be your friend and that's ok. Just be you because you are AWESOME!
